

A woman with long brown hair is looking through a phoropter, a device used by opticians to test and prescribe eyeglasses. The device is white and black, with a headband and a chin rest. The woman is looking towards the right side of the frame. In the background, there is a large, white, professional-grade optical instrument, likely a phoropter or a similar device used in an optician's office. The overall scene is brightly lit, suggesting a clinical or professional setting.
